

ANNOUNCEMENT

TO ALL EMPLOYEES:

June 30, 2004

On behalf of **Moose Jaw Asphalt Management**, *Terry Gomke, Chairman and Mike Collins, President* are happy to unveil a new logo!

"This new logo represents a marriage of the public images of both MJ Asphalt and Gibson Energy, taking the most recognizable parts of both to form a modern, eye-catching image!" says Terry Gomke. Mike Collins adds, *"Ever since our acquisition of Moose Jaw Asphalt in 2002, we have been finding ways to include them in the Gibson "family", through business synergies, social functions, etc. - this "combo" logo is the next logical step in our relationship"*.

This development is in keeping with the company's practice of retaining recognizable public "brands" (i.e. Canwest Propane) when it makes good business sense to do so. The transition from the "old" to the "new" will be gradual, mainly achieved through attrition of supplies, regular maintenance of equipment, etc..

Electronic versions of the logo should be obtained through Carrie Willemsen of Gibson's Communications Dept. at cwillemsen@gibsons.com.
